Flavorcan International Inc. (www.flavorcan.ca) is recognized as a leader in its industry, supplying high quality, custom designed flavors to many of the top companies in the food, dairy, confection, baking, beverage, pharmaceutical, and health industries. Flavorcan International Inc. is a FSSC 22000:2010 certified company. Due to our growing business, we have one opening available in our R&D lab for an experienced technologist.

Position Description

The Food Technologist will:

- Participate or lead the sampling and development of flavours, seasoning and dry blends for the food industry
- Perform research to upgrade food products as related to appearance, palatability, nutritional value and cost.
- Participate in sensory panel/ activities as well as in creating and matching flavours.
- Manage multiple project requests such as: sampling of existing products, creative development of innovative products, and improving existing products

Qualifications

- Minimum three-year experience in flavor or food industry
- Bachelor of Science degree in Food Science, Chemistry, Biochemistry or a related discipline
- Excellent knowledge of ingredient functionality, snack seasonings, cook-up and instant sauces, beverages, and other flavor applications, along with analytical and problem-solving skills,
- Highly organized with excellent verbal and written communication skills.
- Must be able to work in a fast paced, team environment
- Knowledge of organic chemistry and professional designations preferred
